

MODULE OUTLINES

Throughout the one-year duration of this HND in Quantity Surveying programme, the following modules and subject areas are covered.

MODULE CODE	MODULE		SYLLABUS OF COVERAGE
IIBTQS110	Principles of Construction Industry	1.1	Introduction to the building types, Stakeholders and nature of construction industry
		1.2	Introduction to RIBA Plan of Work (inception to Completion)
IIBTQS120	Fundamentals of Construction Technology - I	2.1	Introduction to the Building elements (Foundation/ Partition / Roof / Finishes & Fittings)
IIBTQS130	Engineering Econimics	3.1	Theory of Demand
		3.2	Theory of Supply
		3.3	Theory of Aggregate Demand
		3.4	Theory of Aggregate Supply
		3.5	Theory of Equilibrium
		3.6	Theory of Elasticity
		3.7	Theory of Inflation
IIBTQS140	ICT for Quantity Surveying - I	4.1	Introduction to MS Excel
		4.2	Introduction to AutoCAD

MODULE OUTLINES

MODULE CODE	MODULE		SYLLABUS OF COVERAGE
IIBTQS150	Building Measurement - I	5.1	Introduction to different Standard methods of Measurement (NRM 2 / POMI / SLS 573)
		5.2	Common principle of NRM 2 and Taking off Principles
		5.3	Measurement of Sub Structure work
		5.4	Measurement of Masonary work
		5.5	Measurement of Roof Structures
		5.6	Measurement of Doors & Windows
IIBTQS160	Fundamentals of Construction Technology - II	6.1	Introduction to the concrete Technology
		6.2	Introduction to High-Rise buildings
		6.3	Introduction to Timber & Carpentry Technologies
IIBTQS170	Site Surveying in Construction	7.1	Principles of Land Surveying
		7.2	Familiar with surveying tools and equipment
IIBTQS180	Construction Materials	8.1	Introduction to the different building materials used for the different purposes
		8.2	Familiar with surveying tools and equipment

MODULE OUTLINES

MODULE CODE	MODULE		SYLLABUS OF COVERAGE
IIBTQS190	Construction Contracts and Disputes	9.1	Introduction to contract
		9.2	Contractual relationship in construction contract
		9.3	Termination and Dispute resolution methods in construction contract
IIBTQS200	Tendering and Estimation	10.1	Introduction to tendering methods
		10.2	Introduction to the tender process
		10.3	Introduction to the preparation of Tender document and its contents.
		10.4	Tender Evaluation
		10.5	Preparation of Contract document and its contents
		10.6	Preparation for rate breakdowns.
		10.7	Pricing of BOQ item, Preliminaries, Provisional sums
		10.8	Introduction to the Preliminary Estimating
IIBTQS210	Construction Procurement System	11.1	Introduction to different Procurement Systems (Separated / Integrated / Management oriented / PPP)
		11.2	Selection of Sub-contractors & suppliers

MODULE OUTLINES

MODULE CODE	MODULE		SYLLABUS OF COVERAGE
IIBTQS220	Building Measurement - II	12.1	Measurement of Concrete/ Reinforcement / Formwork
		12.2	Measurement of finishes work
		12.3	Measurement of Structural Steel work
		12.4	Introduction to the preparation of bill of Quantities.
IIBTQS230	Project Management & Construction scheduling	13.1	Introduction to the different planning techniques
		13.2	Introduction to construction program scheduling
		13.3	Introduction to MS Project Software
		13.4	Cost Planning & Cost Management
IIBTQS240	Construction Costing	14.1	Introduction to preparation of Interim payment Application
		14.2	Introduction to variation and Extra work in construction Projects
		14.3	Introduction to the Evaluation of IPA and variation, Preparation of IPC document
		14.4	Preparation for Final Accounts
		14.5	Introduction to Value Engineering

MODULE OUTLINES

MODULE CODE	MODULE		SYLLABUS OF COVERAGE
IIBTQS250	Civil Engineering Measurement	15.1	Introduction to CESMM 4
		15.2	Measurement of Demolition and Site clearance
		15.3	Measurement of Earthwork
		15.4	Measurement of Pipe work
		15.5	Measurement of Road work
		15.6	Measurement of Piling work
		15.7	Introduction to Civil BOQ preparation
IIBTQS260	Contract Interpretation	16.1	Introduction to different form of Contracts (SBD/ FIDIC/ JCT)
		16.2	Contractual provisions of important payment clauses (12, 13, 14 and 20)
		16.3	Employer entitlement of Claim clauses
		16.4	Contractor entitlement Claim clauses
		16.5	EOT + Other force majeure clauses
IIBTQS270	ICT for Quantity Surveying - II	17.1	Introduction to Plan swift software
		17.2	Introduction to Cost X software

MODULE OUTLINES

MODULE CODE	MODULE		SYLLABUS OF COVERAGE
IIBTQS280	Services Measurement (MEP)	18.1	Measurement of water distribution system
		18.2	Measurement of water disposal system
		18.3	Measurement of Electrical system
		18.4	Measurement of fire protection and detection system
		18.5	Measurement of HVAC System
		18.6	Preparation and Pricing of MEP Bill of Quantities
IIBTQS290	Management of Claims and Disputes	19.1	Introduction to the claims in construction contract
		19.2	Introduction to the preparation and evaluation claims
IIBTQS300	Professional Practice and Ethics	20.1	Introduction to the RICS Code of Conducts
		20.2	Introduction to appointment of consultant
IIBTQS310	Career Development	21.1	Introduction to preparation of CV
		21.2	Fundamentals of first industrial establishment.
